EPICENTER 2000 SERIES VARSITY MODEL

NATURAL WOOD ATHLETIC LOCKERS

Affordable and luxurious, our **Epicenter 2000 Series Varsity Model Athletic Locker** is both hand-made, and finely crafted using five distinctively elegant natural wood veneers. Open space at the top of each locker provides storage for helmets and shoulder pads, all being set off by a bold trim piece. A security vault equipped with a dial combination lockset with master key bypass, and mounted with a life time guaranteed, heavy duty euro-concealed hinges. Adjacent to the vault is a spacious hat shelf. Again, set off with a generous trim piece. Ample hanging space is provide in the midsection of each locker using a 1" diameter nickel plated coat rod, and two cast aluminum coat hooks. And, finally, the locker system provides an inside seat with piano hinge, and ventilated storage.

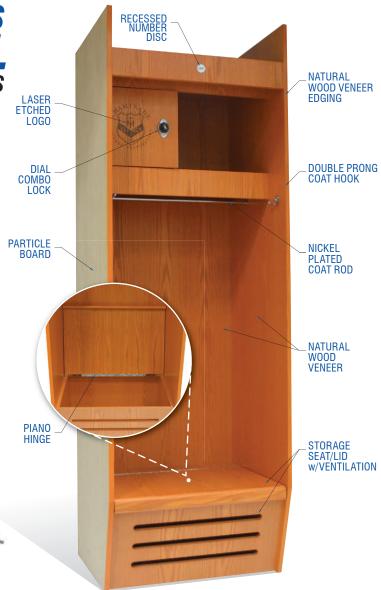

Our Varsity athletic locker is sealed and finished with our premium grade, three coats of pre-catalyzed urethane lacquer, including sanding between coats. Warranty includes all materials and workmanship for three years after delivery. Accessories are available upon request.

- B. Lockers are easily installed on a standard prefabricated 4 x 17 x 72" unfinished bases per locker room layout, cut to fit as required, level bases using readily available shim shingles.
- C. Hang wall straps locker height less 1/2" above bases, spaced approximately 4 to 5 feet apart.
- D. Stack lockers one next to the other per plans, allowing approximately 24" separation in corners, bolt each from together using manufacturer supplied fasteners through predrilled holes. Be sure to align leading edges of locker frames with each other as fasteners are tightened.
- E. Install end and corner fillers and caps, cut to size in field per plans.
- F. install end panels.
- G. Install number discs, clean lockers, remove all related trash and debris from job-site.

3.2 CLEAN-UP

A. Upon completion of the work, remove surplus materials, rubbish and debris resulting from the operations under the section, including equipment and implements of service, and leave the entire structure and site insofar as the work of this section concerned in a neat, clean, and acceptable condition.

3.3 WARRANTY

A. Ideal Products, Inc. warranties its Phenolic Lockers, properly maintained, against delamination, breakage or corrosion for 10 years from the date of receipt by the customer. If materials are found defective during that period for the reasons listed above, the material will be replaced free of charge.

No credits or allowances will be issued for any labor or expenses related to the replacement of components covered under the warranty plan. All such expenses are to be borne by the buyer.

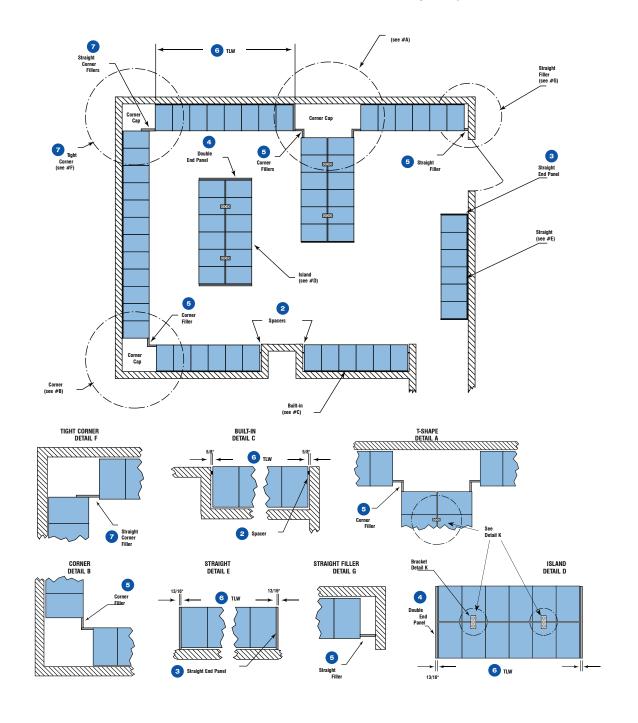

Ideal Products, Inc. reserves the right to change/modify specifications at any time.

LOCKER ROOM DIAGRAMS

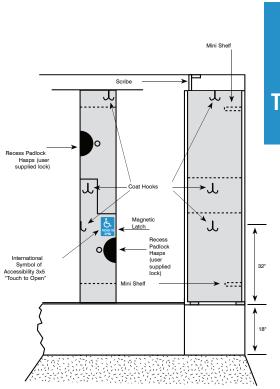

General Notes

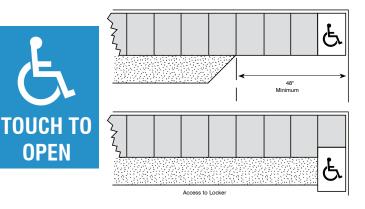

- 1. Locker to be standard as manufactured by Ideal Lockers.
- 5/s" spacers edged with matching edging to allow for hand clearance.
- 3. Single end panels 185% wide to cover rear ventilation.
- 4. Double end panels 365%" wide to allow for air space.
- 5. Fillers are required.
- TLW (total locker width) = Total number of lockers x locker width. 12" lockers are 12.0625" wide; 16" lockers are 16.0625" wide.
- 7. Consult factory for requirements.

HANDICAPPED OPTIONS

Local building officials will eventually require your clubs to comply with The Americans with Disabilities Act of 1990 which requires the following: At least one of each type locker offered, and for double-tier lockers only the bottom row, be provided for handicapped people. A clear floor space of 30"x48" minimum will allow for either forward or parallel approach by a person using a wheelchair. Storage spaces such as shelves, hooks, coat rods, etc., shall be located at a height of 9" minimum and 48" maximum from the finished floor. Acceptable hardware for accessible lockers are touch latches and U-shaped pulls located as close to the top of the door as possible.
